NEW SOUTH WALES INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND.
FOUNDED FOR THE DEAF AND DUMB IN 1861, AND FOR THE BLIND IN 1869.

Erected on Five Acres of Land on the City Road, late Newtown Road, Sydney.
The Foundation Stone was laid by His Excellency the Earl of Belmore, on April 3rd, 1871. Opened publicly in February, 1872.

HINTS TO PARENTS.

Written for the Ulster Institution for the Deaf and Dumb and the Blind, by the REVEREND JOHN KINGHAN, *Principal*.

THE time allowed for the education of the Deaf and Dumb in our Institution being necessarily so very limited, it is of the greatest importance that the attention of their friends should be directed to the early and proper training which some children ought to receive. If there were only a willing mind, parents and friends might do much by preparatory training at home to facilitate the progress of these children on admission to our Institution as well as to benefit them when they leave it.

I.—UNEDUCATED DEAF AND DUMB CHILDREN.

Such children could easily be taught to write on a slate, or otherwise, in their own homes, or with their brothers and sisters in the common school of the neighbourhood. When the child can form letters on a slate, it should be taught the manual alphabet. This may be done thus: Write the letter *a* on a slate, draw the child's attention to it, then teach it to put its hand in the position indicated in the engraved manual alphabet for *a*. Repeat this till the sight of the letter readily suggests this particular position of the hand. Let the instructor then form this letter on his own hand and see if the child can write the letter. In the same way proceed with the other letters. The alphabet having been thus learned, give the child names of objects or animals with which it is familiar, beginning with words of three letters, as *hat, dog, pig, cow, pin*, etc. Thus: Write very plainly the word *hat*. Then let the child form the letters *h a t* on its fingers, and next point to a hat. Let this process be frequently repeated, till the letters come to be associated with the object and fixed in the memory of the child. This being done, blot out the word, point again to the object and see if the child can write *hat*; and, if so, proceed gradually to each other word in the same manner, such as those for *parts of the body, articles of dress, furniture, tools*, etc. Pictures of objects may be used with much profit.

Colours and numbers might also be taught. In teaching numbers, give the child a few objects to count, and let them be written down thus: 1, *one*; 2, *two*; 3, *three*.

II.—DEAF AND DUMB PUPILS AT HOME DURING VACATION.

At this time they should be taught the names of *parents, brothers, sisters, uncles, aunts, cousins*, etc. Thus—Uncle ANDREW BROWN, Aunt CHARLOTTE DIXON, etc. The names of *places*, particularly the *residence of friends, neighbouring towns*, etc., might be given. When the name is first taught, the person or place named must be shown to the child.

Various operations connected with agriculture, and with the trades carried on in their neighbourhood might be explained to these children, which would be very difficult to teach in an Institution; for many of these must be seen to be fully understood.

Induce pupils whilst at home to spend some time *daily* in revising lessons in their school-books.

III.—DEAF MUTES WHO HAVE LEFT SCHOOL.

When pupils finally leave school, much may be accomplished by friends in the way of carrying forward their education. They should converse much with these children, in very simple language, on religious and other subjects, by means of the manual alphabet and by writing. The use of signs, except when trying to explain difficult words, should be avoided and discouraged. For example, instead of signing to the child, *Bring me a chair*, write these words or spell them, and always oblige the child to write or spell what it has to express, and correct for it any errors in the language it employs. By adhering to this course, a desire will be excited in the minds of these children to acquire and keep up a correct style in the use of written language, an attainment on their part of the greatest difficulty, and yet of the highest importance.

Attention is specially directed to the importance of having these pupils immediately apprenticed to some trade, or occupied in some useful employment on their return home, by which they may be kept from acquiring idle habits, and be put in the way of earning their own livelihood. The Committee will assist, when necessary, in carrying this out.

In the management of these children, let parents and friends beware of the extremes of over-indulgence on the one hand, or of undue severity on the other. Such children suffer very much from injudicious kindness, or from violent and rude opposition. In general they should be treated very much like other children, and taught to feel in every respect that they are responsible beings.

Forty-Sixth Annual Report

OF THE

NEW SOUTH WALES

Institution for the Deaf and Dumb and the Blind,

for the year ended on September 30, 1907.

It affords the Board much pleasure to submit the following report of their proceedings for the year that has just closed:—

PUPILS.

The number of pupils who have been under instruction during the year is shown in the following tabulated statement:—

	Deaf & Dumb.		Blind.		Totals.		Grand
	Male.	Female.	Male.	Female	Male.	Female.	Total.
On the Roll Sept. 30, '06	45	28	13	8	58	36	94
Admitted since ..	23	10	5	2	28	12	40
	68	38	18	10	86	48	134
Discharged or Removed	9	4	3	3	12	7	19
On the Roll now ..	59	34	15	7	74	41	115

Of the forty admissions during the year, 36 were new pupils, and four were children who had been in the Institution previously. It is very gratifying to be able to report such a large number of new admissions—being the largest number admitted in one year since the Institution was established, a fact which affords satisfactory

evidence of the successful efforts that have been made to bring the Institution under the notice of the parents of children afflicted with deafness or blindness, as well as of the wisdom of those parents who have realised their obligations towards their afflicted little ones, and the necessity of equipping them for life's battles by voluntarily affording them an opportunity of acquiring a good education which will enable them, later on, to earn their own living and become respectable, self-supporting, and worthy members of the community. But whilst many parents do realise their obligations in this respect, there are others, the Directors regret to say, who cannot be persuaded to part with their little ones, thus risking their future welfare, happiness, and prosperity.

For such as these the only remedy would be a Compulsory Education Act, whereby all parents would be penalised for any such neglect. A Bill in this direction was prepared some considerable time ago, but so far has not been submitted to Parliament. The Directors, however, are hopeful that the Government will take the matter in hand, so that it may be placed on the Statute Book without unnecessary delay. The need for this legislation is shown by the fact that only a small percentage (1.5) of ordinary children of school age in this State are not on any school roll whilst it has been estimated that there must be at least 50 per cent. of afflicted children who are not receiving any instruction, and whose minds, especially in the case of the deaf, are a complete blank. The State has realised its duty in regard to ordinary children, and has made splendid provision for their education; by going a step further in enforcing education to the Deaf and Dumb and the Blind, the existing scheme would be made still more satisfactory.

A large majority of the pupils are making very satisfactory progress. The parents, as a rule, are highly pleased with their children's attainments, although many of them have had only a very short time in school, and express their thankfulness in exceedingly gratifying terms.

The health of the children has been fairly good. There has been no illness of a serious character, but whooping cough, influenza, and several minor complaints have been rather prevalent, and interfered somewhat with the work of the school, and have necessitated several of the pupils being sent home for a time.

The children have been well-behaved, attentive to their work, and seem eager to derive all the information possible from the teachers.

The Superintendent and staff of teachers have been painstaking and diligent in the discharge of their duties, and have been doing their best to advance the interests of the Institution.

All information respecting the methods of instruction and other matters will be found in the Superintendent's report, which is appended hereto.

FINANCIAL.

The operations of the past year have, on the whole, been fairly satisfactory.

	£	s.	d.
The year commenced with an overdraft of	119	15	1
The expenditure, as per account, has been	5695	2	6
<hr/>			
making a total of	5814	17	7
The income as per account has been	5665	0	4
<hr/>			
The balance overdrawn at the Bank is	149	17	3
The debt on the Institute for the Adult Deaf			
now stands at	1038	16	10

Full details of the receipts and disbursements appear in the balance sheets appended hereto.

The Directors thankfully acknowledge receipt of several legacies, viz.: One of £270 from the estate of the late Hon. E. Vickery, M.L.C.; £33 6s 8d (making a total to date of £100) from the estate of the late James Bartlett; and £60 10s from the estate of the late Mrs. Matilda McIntyre; all of which have been placed to the credit of the Perpetual Subscribers' Fund; also £25 from the estate of the late William Philip Dunlop placed to the credit of the General Fund Account.

A bazaar, organised by Miss Estelle Rosenthal (honorary teacher of needlework), assisted by a number of lady friends, was held on June 12th, and three following days, in the large hall of the Institution, which was handsomely decorated for the occasion. Miss Rawson, with her usual kindness, performed the opening ceremony, and contributed, in no small degree, to the success of the undertaking. Unfavorable weather, however, after the opening day, interfered very materially with the attend-

ance, but, notwithstanding this drawback, the net result amounted to £144 7s 7d, which amount was placed to the credit of the Institute for the Adult Deaf, in reduction of the debt thereon.

BOARD OF MANAGEMENT.

Sir Phillip Sydney Jones, Mr. Robert Chadwick, and Mr. John Harris, directors, retire at this meeting, but are eligible for re-election, and have given the requisite notice of their candidature.

LADIES' VISITING COMMITTEE.

Mrs. David Mitchell and Mrs. J. M. Sandy have been appointed members of the Ladies' Visiting Committee.

To this Committee the Board tender their most sincere thanks. The ladies have been untiring in their efforts to advance the interests of the Institution, and have materially assisted the Board in regard to the internal management.

OFFICIAL STAFF.

As mentioned in last report, Mrs. Macleod, who had occupied the position of matron for upwards of twenty years, resigned on account of failing health, and retired from office at the breaking up of the school in December. The Ladies' Committee presented Mrs. Macleod with a purse of sovereigns as a mark of their appreciation of her services. The Directors also gave her a token of their satisfaction.

The vacancy thus caused was filled by the appointment of Miss Henson, who, however, resigned in July, and was succeeded by Mrs. Clarke.

Miss Graham, assistant matron, also retired from office, after many years' service, and her position was filled by the appointment of Miss Aubrey.

Owing to the large increase in the number of pupils, it was found necessary to appoint two other pupil teachers, viz.: Messrs. A. L. Everingham and Wallace J. Thompson.

ALTERATIONS AND REPAIRS.

The Institute for the Adult Deaf and the superintendent's residence have been painted during the year, and a few minor alterations and repairs carried out.

GENERAL.

The annual prize distribution took place at the public examination of the pupils and breaking-up of the school, on Thursday, 13th December, in the presence of a large assemblage of subscribers and pupils' friends. Many valuable prizes, principally books, were distributed among the deaf pupils, while the sum of £58 9s 8d, interest from the Spittles' Legacy Fund, was divided among the blind pupils, in accordance with the terms of the testator's will. The prizes were kindly handed to the successful students by Mrs. P. F. Mackenzie.

Mr. S. Chaim, who for twenty years had filled the position of honorary dentist, resigned in June last, much to the regret of the Board, who placed on record their appreciation of Mr. Chaim's unvarying courtesy and kindness to the pupils whenever they required his services, and conveyed to him their sincere thanks for the able and efficient manner in which he had carried out the duties of his office.

Mr. A. G. Gabriel, at the invitation of the Board, kindly consented to fill the vacancy caused by the retirement of Mr. Chaim.

The Directors desire to place on record their appreciation of the services rendered during the year by the undermentioned: Dr. W. Camac Wilkinson (hon. physician); Dr. T. Storie Dixon (hon. aurist and oculist); Dr. Herbert J. Marks and Dr. P. Sydney Jones (hon. surgeons); Mr. Percy J. Pratt (hon. solicitor); Messrs. A. L. McCredie and Anderson (hon. architects); Mr. A. G. Gabriel (hon. dentist); and Miss Stella Rosenthal (hon. teacher of needlework).

INSTITUTE FOR THE ADULT DEAF.

The work of the Institute, under the able supervision of Mr. Watson, continues to be carried on in a very satisfactory manner. Twice on Sundays and several times during the week the Adult Deaf meet for religious services, social intercourse, and mutual improvement.

Mr. F. S. Booth, the teacher of the Adult Deaf, after an absence of several months, returned to Sydney in November last, and at once resumed duty. During his absence, his work was efficiently carried on by Mr. Victor Fisher, who also acts as secretary to the Institute, and carries out the duties of his office to the entire satisfaction of all concerned.

The Board voted a sum of Ten Pounds towards the purchase of a cinematograph. This will enable the Deaf to spend many profitable evenings, and will be the means of raising funds for the internal requirements of the Institute.

CONCLUSION.

In conclusion, the Directors desire to offer their sincere thanks to Almighty God for the measure of success that has attended their efforts during another year, and trust that the continuance of their labors in the cause of the Deaf and Dumb and the Blind will be similarly blessed during the ensuing year.

SUPERINTENDENT'S REPORT.

TO THE BOARD OF DIRECTORS.

Gentlemen,—The close of another year's operations in our Institution work imposes upon me the duty of presenting a brief report thereupon. The almost unvarying nature of the school routine, year after year, affords but little scope for comment, beyond what has been said on many previous occasions, and which it is undesirable to repeat at any great length.

The Educational Work

in the school rooms for both the Deaf and Blind has been carried on throughout the year with quiet and, it might almost be said, monotonous regularity in all departments, and yet with unflagging zeal and attention both by teachers and pupils, and, I venture to say, with satisfactory results on the whole. The same may be said with regard to the drawing, modelling, music, and sewing classes, as well as the workshop, garden, etc. The work of educating children deprived of speech, hearing, or sight, is necessarily quiet, slow, and devoid of those more or less brilliant results usually expected and obtained in ordinary schools, where pupils enjoy the full complement of human faculties; yet it is satisfactory to know that most beneficial results crown our efforts in the unostentatious labour bestowed upon these afflicted ones. Casual visitors to our class-rooms, especially those accustomed to the brightness often observed in public schools, may—and I know, often do—think it a sad and wearying task to attempt the education of these children; but to the earnest teacher, this work affords some of the highest and choicest forms of satisfaction, and the labour bestowed finds its best reward in the brightening of the lives of these little ones, who, without such teaching as is afforded here, would be doomed to life-long ignorance and incapacity for even the ordinary duties of life; whereas, when properly trained, many attain to a high degree of intelligence and usefulness.

As to the

Methods of Tuition

obtaining for the instruction of the Deaf here, as well as in older lands, and which at some length I set forth in my report for 1905, suffice it to say that further information since received from experts in Europe, and also from the Conference which recently met in Edinburgh, have tended to confirm the opinions then expressed, that a judicious employment of the best elements of both oral and manual teaching, according to the mental and other powers of the pupils, and as for some time past practised here, is calculated to secure "the greatest good to the greatest number." A long and varied experience among both the adult and junior deaf tends to emphasise this view. As regards the

Conduct of the Pupils

throughout the year, it is very gratifying to be able to testify warmly, and to add that, as a rule, they very cordially respond

to the efforts of their teachers, and those placed in domestic charge of them. In a reflex way, indeed, and speaking generally, we have experienced the truth that "as we sow, so shall we reap." We receive back from our pupils the confidence and good-will shown them in our efforts to benefit and uplift them; and we find these efforts very rarely made in vain. This stimulating thought is, indeed, very gratifying, and makes the work of educating the Deaf and Blind "a labour of love," and neither tedious nor depressing, as many "outsiders" may suppose it to be.

It is always gratifying to be able to speak warmly of

The Adult Deaf,

and their steady, useful, and self-reliant lives. Most of them are engaged busily here and there in their several callings, giving satisfaction to their employers; and, as a rule, the information received from those employing them is very gratifying. But, as Mr. Booth has touched upon this feature of our work in his report, which I beg to enclose, it is not necessary for me to say more.

The reports from Messrs. Bennett, Massey, and Sell, which please find herewith, show the regard and mutual respect existing between both teacher and taught.

For this, as also for the progress made both in these technical departments and by the staff generally, one cannot speak too highly.

Conclusion.

Before closing my remarks, permit me to draw attention once more to the fact that there are many deaf and blind children in this State growing up in ignorance and uselessness who should be with us, but for the culpable neglect of their parents or guardians, thus showing the need for a compulsory clause being added to the "Education Act," compelling the attendance of such children at some Institution where they might participate in the privileges of education, etc., as an equipment for the coming duties and responsibilities of life.

MUSIC MASTER'S REPORT.

TO THE BOARD OF DIRECTORS.

Gentlemen,—The musical progress of the Blind pupils during the last 12 months has been very satisfactory.

In spite of some of our best and stronger voices leaving the Institution, I am glad to report really good progress in the singing and theory classes. The four (4) individual piano pupils (Vera Parkinson, May Cooper, Doris Dawson, and Norman Raymond, have shown marked improvement.

The junior piano pupils under Miss Moffatt's care are doing good work, and her help in the singing class is much appreciated.

THE DRAWING MASTER'S REPORT.

TO THE BOARD OF DIRECTORS.

Gentlemen,—In making my report for the past twelve months, I wish to say that everything is going on in a very satisfactory manner.

The pupils are making good progress, and a high standard of excellence is being maintained by several of them—more so, perhaps, than has been the case in recent years.

There are at present twelve girls and seventeen boys learning drawing, and the former, I am pleased to say, are holding their own and compare well with the other sex.

There are nine boys learning wood-carving, and twelve learning modelling, preparatory to their entering the class for carving, and all are making the most of the opportunities afforded them.

I have to express my appreciation of the support received from the Superintendent and other officers.—I am, etc.,

J. A. BENNETT.

REPORT OF THE TEACHER OF CARPENTRY AND GARDENING.

TO THE BOARD OF DIRECTORS.

Gentlemen,—In making my report this year, I have much pleasure in stating that the Carpentry and Gardening classes have made very satisfactory progress. In the former, two or three boys are showing decided ability, and all take an interest in their work.

There is but little to show for the year's work in the garden, owing to the want of rain.

City Road, Darlington.

REPORT UPON THE INSTITUTE FOR THE DEAF AND DUMB AND BLIND.

Visited 2nd and 3rd October, 1907.

Pupils enrolled, 115. Present at inspection, 110.

This Institute is conducted in a very fine building on the Newtown Road. It faces Victoria Park and the University, and occupies a conspicuous position on one of the best sites in the metropolitan area.

The rooms in it that are devoted to school purposes are well ventilated, suitably lighted, and kept scrupulously clean. They afford more than sufficient accommodation for existing requirements, and, though the walls and ceilings are in need of a fresh coat of paint, these rooms are in good repair. When the work of re-painting is undertaken, it will be advisable to color the ceilings white and the walls a light green or a pale blue.

Ample furniture is provided for the scholars, and most of it is in good working order. Gradually the old-fashioned desks are being put away, so that others of dual pattern may be brought into use.

Some of the maps, notably those of Europe and of Australia, are much worn, and are altogether out of date. New ones of modern type should be obtained in place of these, and at the same

time several relief maps purchased for the use of the Blind. All the written work of the elder pupils should be on paper. Let tablets be used instead of slates, as in the Public Schools.

Much of the instruction given is not suitably programmed. To ensure a progressive sequence of lessons in each branch of study, it is necessary that every teacher prepare, at least three months in advance, an outline of the work to be done. Two of the teachers thus pre-arrange their scheme of lessons; all should do so.

The pupils of all the classes are courteous in manner, and, because keenly interested in their lessons, are attentive to their teachers, responsive, and very orderly. Due attention is given to the physical culture of the pupils, and all present a neat, clean, and cheerful appearance. The government is of a vigilant, sympathetic, and thoroughly effective character, and the moral tone of the school is excellent. It is advisable that the Blind should take part in the drill exercises with the other pupils, during the morning recess.

The staff numbers in all nine teachers, two of whom are beginners, and are under the supervision and instruction of Miss Beaumont. These juniors receive lessons on method after school hours on certain days of the week, but no record of this special work is kept, nor is the subject matter of the lessons about to be given outlined, as it should be, in a quarterly or half-yearly programme. If possible, the work of the existing staff should be so re-distributed as to provide additional assistance to Miss Reid in the Blind Department. If aid cannot thus be afforded that officer, it will be necessary to consider the question of appointing an extra teacher to her department. If the number of pupil-teachers now employed were increased, this Institute could be made a valuable training school for teachers of the deaf and blind, and then parents who dislike the idea of letting their children leave home would be able to secure, by this means, trained experts as tutors. In addition to the regular staff, two specialists, Messrs. Bennett and Massey, visit the Institute regularly. Mr. Bennett gives instruction in drawing, modelling, and wood-carving, and Mr. Massey in vocal and instrumental music.

The teachers faithfully and very effectively discharge the important duties allotted to them, and under their expert and energetic training, the pupils are making sound progress.

During this inspection the scope of the instruction was noted, the methods of teaching observed, and the attainments of the pupils tested. On lists attached to this report the results of the teachers' work have definite values assigned them, and these, it may be seen, are of a very satisfactory character.

Of those pupils present at the inspection, 23 were being taught to articulate the sounds of the letters, 59 were learning to speak words and sentences, 22 were being trained to read and write in Braille type, and 6 were being instructed by means of manual signs. The reading throughout the school, as well in print and script as in Braille type, is found to be effectively taught. The writing of the pupils, too, is, as the marks indicate, of high merit, and will be still more creditable if the use of slates be discontinued. Some of the marks awarded for arithmetic are low, but this difficult subject is taught with skill and untiring patience

by all the staff. Hints have been given for the more intelligent treatment of number in junior class work. Grammar, history, scripture, and other branches of general knowledge are, within existing limitations, successfully taught, and the same can be said of English composition.

Manual training forms a valuable part of the education given to these children; gardening is taught to 10 of the elder boys, wood-carving to 9 boys, modelling in plasticine to 11 boys, drawing to 30 pupils, and carpentry to 18 boys. All the girls learn needle-work, 12 of them laundry work, and 10 of them cookery. The Blind girls are very clever at knitting. Some admirable specimens of this latter work were shown during the inspection, also much of the pupils' work in the other branches of art and manual dexterity above referred to.

A library for the Blind is provided, consisting of 1069 volumes. These contain extracts from nearly all the famous writers of prose and verse in our language, and all these literary gems are set in Braille type for the special use of sightless students. Diligent use is made of this library by all the pupils who are proficient readers of Braille.

Briefly summarising this report upon the general condition of the school, our estimates stand thus:—

Organisation: Very good.

Discipline: Sound in aim and method, and very effective.

Instruction: Suitably graded and imparted with zeal and success.

General Management: Vigorous, progressive, and efficient.

SIXTH ANNUAL REPORT OF THE INSTITUTE FOR THE ADULT DEAF.

To the Board of Directors of the N.S.W. Institution for the Deaf
and Dumb and the Blind.

Gentlemen,—It gives me great pleasure to bring before your notice the Sixth Annual Report of our Adult Deaf Mute Institute, which is the sixteenth of this Association.

During the past twelve months the work of the Institute has progressed steadily and with much satisfaction.

The Sunday evening services and the Bible Class have been conducted regularly and have been attended by about the same number as that of the previous year.

Several successful lectures, social gatherings and entertainments have been given during the week evenings.

At our last biograph entertainment, given on the 27th instant, the hall was well filled, the takings realised nearly £8 gross.

I am glad to state that the "Silent Messenger" has met with much appreciation from the deaf as well as friends outside; and we are looking forward to being able to secure a type machine shortly, when we will be able to make our paper more newsy and interesting. Our deaf friends, in the country especially, send us congratulations on our attempt in this direction.

We have been fortunate in securing at a reduced cost a first-class cinematograph, and also a good limelight apparatus, and have paid £22 10s so far, leaving a balance of £37 to be paid. We are making a special appeal to friends to help us wipe off this sum as quickly as possible.

Geometrical drawing and book-keeping classes have been formed during the year, at which the members gain much useful knowledge.

The deaf ladies had the arranging and working up of a stall at the bazaar held in June. The bazaar was very successful, and the ladies are now taking a keen interest in another sale of work on their own account, to be held next year.

The general health of the members has been very satisfactory, and all have plenty of employment.

In conclusion, we beg to offer our most sincere thanks to those kind friends who have helped and taken an interest in our well-being during the year that is now drawing to a close.

FLETCHER S. BOOTH,

Hon. Secretary.

29th September, 1907.

REPORT OF PROCEEDINGS AT THE FORTY-SIXTH ANNUAL GENERAL MEETING.

The 46th Annual Meeting of the Institution was held on October 21st, 1907. Sir Arthur Renwick, K.B., M.L.C., presided.

There were also present Messrs. Fred. Phillips (Hon. Treasurer), Wm. Rigg (Hon. Secretary), L. C. Russell Jones, John F. Rofe, W. H. Simpson, and Jas. T. Wilshire (Directors); Mesdames W. H. Simpson, W. Rigg, P. F. Mackenzie, David Mitchell, and W. Briggs, and Miss Robinson (Members of the ladies' Visiting Committee); Rev. E. Claydon, Rev. Luke Parr, Mr. F. A. Franklin, and other connected with the institution.

There was a large attendance of subscribers and friends, the big hall being comfortably filled.

It was decided to take the Annual Report and Balance Sheet as read.

In moving the adoption of the report the President (Sir Arthur Renwick) said: I have very great pleasure in proceeding to-day to the consideration of the Annual Report and Balance Sheet, because the report which has been presented to this audience is one of the most satisfactory that we have ever drawn up in connection with the work of the institution. Unfortunately, His Excellency Sir Harry Rawson is unable to be present here to-day to hear this splendid report of the institution's progress during the past year. For several years back Sir Harry Rawson has been present at our annual meetings, encouraging us in the work of this institution, and assisting us with his advice in the carrying of it out. Owing to other pressing engagements His Excellency found it impossible to be with us to-day. I am sure we all sincerely regret his absence. (Hear, hear.)

The Annual Report now in your hands is without doubt one of the most favourable that has ever been presented to the subscribers of this institution, and in view of its satisfactory contents there is very little need for me to say much about it in order to recommend it to your approval. In the first place I may say that for many years we have been pointing out to the public of New South Wales that there are large numbers of children who ought to be inmates of this institution, and deriving the advantages that it offers, but who, through a mistaken idea of their parents, are not within its walls. As a matter of fact, during the last year, we have been particularly successful in regard to the increase in the number of the children attending here. As against 94 children who were attending the Institution 12 months ago we now have a total of 115, the latter being, perhaps, as large a number as we ever had domiciled within the institute. 40 children were admitted during the year, 36 of whom were new pupils. This is a convincing proof that the complaints which we have made from time to time were well-founded. There are many other afflicted children who require the assistance of the institution, and who I hope will be brought here in order that they may be placed under tuition and discipline. Apart from the fact just mentioned,

the rest of the report is of an ordinary character, and as for many years past I have had the pleasure of speaking from this platform concerning the annual reports I hope I may be excused from details. The work of this institution has been well carried out during the past year, and presently I will ask the Hon. Secretary to read the official report of the Government Inspector, which well bears out what I have said in regard to the instruction given during the past year.

I do not wish to refer to finance, for although we are well satisfied with the results, I may say that we had expected greater things. We are quite satisfied, however, that the generosity of the public may be trusted to make up any deficiencies that may have occurred in connection with the institution.

I will say, as I have said for many years past, that we owe a deep debt of gratitude to the Ladies' Visiting Committee, who come here week by week to examine the various details in connection with this institution, and report to the Board. We have had some difficulties in regard to the internal details of management through the past year. You will see from the report that the late matron, who was a highly valued officer, and who had been with us for many years, was compelled to retire. Of course, we recognised the value of her services in the fullest possible manner, and you will see that the Ladies' Committee had a high appreciation of her. We have now a new matron, and during the interval we had a lady who endeavoured to fulfil the duties of the position, but who found that her health and other circumstances prevented her from carrying them out to her own satisfaction.

Of the gentleman who give their valuable services in connection with the medical and other departments, I cannot speak too highly. We have not been immune from the various epidemics which have occurred in Sydney and its neighbourhood during the past year. I think every mother here knows what a baleful thing influenza has been lately. We have therefore had to call largely upon our medical officers and others to assist us, and the hon. solicitors and the hon. architects have all given us valuable assistance.

One striking portion of the work that we have carried on has been that in connection with the building for the adult deaf. I daresay those of you who have followed the history of this Institution for any length of time will remember the trepidation with which we entered upon the work of erecting the building for that purpose, to benefit the young men and women who had been trained in this Institution, so that we might be able to give them assistance from time to time in regard to the obtaining of work and other matters. That has been a great success. Under the care of Mr. Watson and his coadjutors the men enter into conversations, and they have lectures, while the young women are instructed in all those delicate and interesting domestic matters of family life, and receive valuable assistance and advice. The Institution has been a great boon, and we hope that the large amount we have expended will soon be repaid. As you will gather from the balance-sheet, the debt on that building has been considerably reduced during the past year.

The special point in connection with the Institution, as far as the fathers and mothers of these afflicted children are concerned, and as far as the future of the children themselves is concerned, is their education. I do not intend to say much upon this point, be-

cause I have pointed out for several years that our desire is to make the girls and the boys who are brought here capable of reading and writing, and understanding the general topics of the day,—to be good, ordinary citizens. In order to be sure that our teachers are thoroughly doing their duty, we invite the Government Inspectors to come here and examine the children. In that way we can satisfy ourselves that the work has been properly carried out. I will ask the Secretary to read the report of the Government Inspectors, because I am sure you will find it a most interesting document.

Mr. Rigg then read the report of the Government School Inspectors, which will be found on previous pages.

The President: You will observe that these gentlemen who have signed the report just read by the Hon. Secretary are amongst the highest educational authorities in the land. They point out some slight defects. You may be sure that the directors will do all they possibly can towards removing those defects, now that they have been pointed out,—such as the painting certain walls a certain colour, the substitution of tablets for slates, etc.,—as quickly as possible. That inspectors' report will be printed in the official report of our proceedings, but many of our subscribers—especially the ladies—might really not see it in print, or have time to read it, and it is for their benefit that I have had it read. (Hear, hear.)

I feel satisfied that the report and balance sheet are such as will commend themselves to you all, and I therefore content myself with formally moving the resolution, as follows:—"That the report be adopted, and, together with the balance sheets, etc., be printed for circulation."

The Rev. Mr. Claydon, in seconding the resolution, said: I am certain that we will all decide to pass this resolution unanimously, because upon the face of it it is deserving of such a vote. There are just three good reasons come into my mind why this resolution should be passed in that way. The first is, what we have just heard regarding the school itself. Our Chairman has pointed out that there may be one or two little defects, but that otherwise it is a most satisfactory report. The children are being instructed here and doing well, without doubt.

The second reason why we should adopt this report is because of the way in which the children progress. I can speak here from what I myself know, because I have seen some of the results of the teaching of pupils attending this school. I have seen a child come here deaf and dumb. I could only compare her when she first came with a little wild cat. I do not know of any other simile applicable to her. After a little time here the improvement was so eminently satisfactory that I scarcely knew the child.

Thirdly, I would like to say that I have had experience this year of the courtesy of the officials of the Institution in regard to the admission of a deaf boy. I cannot speak too highly of the way everyone acted with regard to the admission of that pupil. For these and other reasons I have very much pleasure in seconding the resolution.

The resolution was then put to the meeting, and carried unanimously.

Thanks to Government and Parliament.

Mr. F. A. Franklin (M. Inst. C. E.):—The following resolution has been entrusted to my care: “That the thanks of this meeting are hereby given to the Government and Parliament for the annual donation of £450 in aid of the funds of the Institution.”

I do not know the details concerning it, but I would like to say that, although I am a stranger at these meetings, I have been much interested in the work of the Institution. I have often read the report of the proceedings, but this is the first time I have had a chance of being present. For many years I have been proud of this noticeable structure, standing as it does in such a prominent part of the city, and I was sure that great work was being carried out here. But, on finding out the extent and ramifications of the work, I must say that I am more than surprised. At the same time, I hardly know that I ought to be surprised, considering the enthusiasm that is thrown into it by the Chairman. (Hear, hear.)

I have known the latter for a number of years, and I know that anything with which he is connected is carried out with enthusiasm and thoroughness. I feel very much pleasure, and am very much honoured, in having, although a chance visitor, the honour of having the report read in my hearing, and being placed in a position which enables me to say a few words in the interest of this noble Institution. I have pleasure in asking you, notwithstanding that I do not know the details, to pass this resolution, for I am certain that this money could not have been better bestowed in any other Institution in the State. (Hear, hear.)

Mr. Phillips (Hon. Treasurer):—I do not intend to make a speech, as I realise full well that the interesting part of the proceedings to you is the examination of the children, that is to come later on. I have much pleasure in seconding the motion.

Election of Members of the Board and Medical Staff.

Moved by Mr. L. C. Russell-Jones, seconded by Mr. John F. Rofe, that the following gentlemen be members of the Board of Directors for the ensuing year:—

President: The Hon. Sir Arthur Renwick, K.B., M.L.C.

Vice-Presidents: Mr. John Hay Goodlet, J.P., and Mr. James R. Love.

Hon. Treasurer: Mr. Fred. Phillips.

Hon. Secretary: Mr. William Rigg, J.P.

Directors (to fill vacancies): Mr. Robert Chadwick, J.P., Mr. John Harris, J.P., and Sir Phillip Sydney Jones.

And that the following do constitute the Medical Staff:—

Hon. Physician: Dr. W. Camac Wilkinson.

Hon. Anrist and Oculist: Dr. T. Storie Dixon.

Hon. Surgeons: Dr. Herbert J. Marks, and Dr. P. Sydney Jones.

Vote of Thanks to Directors and Officers.

Rev. Luke Parr: In moving a vote of thanks to the Directors and Officers for their services during the past year, I am carried back to some years ago, when I was in charge of a parish which includes the Institution in which we are now assembled, and many

of the inmates were my parishioners, and I was always very deeply impressed with the attention of the officers and the wonderful capability which seemed to be their marked characteristic.

I think that honour is due to the officers for the way in which they have carried out the work of the Institution. (Applause.) If I make any special reference to a certain officer, let it be to the Superintendent of this Institution. I have known him 15 years, and I have never had but one opinion of him,—that he is the best and most worthy man for the office which he holds. (Applause.) I have very much pleasure in proposing this resolution.

Mr. W. H. Simpson: We all know that the one aim of the Directors and Officers of this Institution is to do all they can to promote the moral, intellectual, and physical betterment of the children who come to this Institution for instruction. They devote themselves to the work, and the Institution flourishes under their direction. As regards the officers of the Institution, I cannot speak too highly of them, and I have been connected with the Institution for 30 years. We have got a splendid staff of officers here. The Superintendent is one in ten thousand. He has the confidence of every child in the place, as well as of the officers under his control, and the Institution must prosper under his guidance. The other officers are indefatigable in their work, and I trust that the Institution may go on and flourish. I beg to second the motion.

The motion was then put and carried unanimously.

This concluded the formal portion of the proceedings, and an interesting exhibition was given by pupils of different classes, which afforded striking evidence of the progress the young folk had made during the twelve months just ended. Visitors also found much to interest them in the exhibitions of wood-work and needle-work of the boys and girls of the Institution.

The proceedings were brought to a close by the singing of the National Anthem.

COMPOSITION BY THE PUPILS.

The following specimens of composition, or essays, are the work of some of the pupils (the subjects are of their own choosing), and receive no correction, except such as their respective writers can make on a careful review, when the prominent errors are pointed out by a teacher. In judging them it is well to remember the ages of the writers, and the length of time at school; also that very few, if any, had acquired a knowledge of written or spoken language previous to their admission into the Institution:—

THE UNITED KINGDOM.

The United kingdom is the greatest commercial and manufacturing country in the world. It has a good position and climate a good supply of coal and iron; and it has colonies in all parts of the world. Fishing is an important industry and employs about 120,000 men. Leather, glass, paper, watches, clocks, earthenware, cloth etc are all made there. The chief markets for these goods are:—India, Canada, France, China, Australia and many other places. The chief imports to the United kingdom are:—articles of food and raw material for the factories. The chief ports of trade are:—London, Liverpool, Cardiff, Newcastle, Glasgow, Dover, Newport and other places. The British nation is the most powerful in the world, but some other countries have larger armies. Education is free and compulsory. Most of the English are Protestants. The Scotch are Presbyterians, but a great many of the Irish are Catholics.

E.B., five years at school.

LORD NELSON.

Lord Nelson lived in the reign of Geo. III. He was born in 1758 and was killed in 1805. He was England's hero and greatest naval commander. At the age of 13 he became a midshipman, and captain when only 21. He served in America during the War of Independence. He helped Admiral Jervis to defeat the French and Spaniards at the battle of St. Vincent A.D. 1797. In 1798 he destroyed Napoleon's fleet at the battle of the Nile. In 1805 he defeated France and Spain at the battle of Trafalgar. Before the battle began he hoisted this signal, "England expects every man to do his duty." He was wounded during the battle, and after his death was buried at St. Paul's Cathedral. He was only 47 years of age at the time of his death. During his life he lost an arm and an eye. England mourned the loss of such a great and noble patriot.

E.B.E., four years at school.

THE DOG.

The dog is a useful animal. It is covered with hair. It can run fast. It can catch rabbits and kangaroos. It likes to fight with cats. It chases the cats. It can bite a man. It can bark and growl. Some dogs can jump well. It can swim well. I have six dogs at home. They eat flesh and bread, and drink water or milk. Their teeth are sharp. Dogs in the town are kept on chains and have kennels to sleep in. In the country they run about on the farms. There are different kinds of dogs. The St. Bernards are big, and terriers are small. Stock dogs are very useful to farmers and drovers. Nearly all dogs bark at strangers, and some are savage.

H.E., three years at school.

THE BRAILLE ALPHABET, WITH CONTRACTIONS.

—:—

The large dots represent the raised points of the Braille letter; the small simply serve to indicate their position in the group of six.

A THOUGHT.

“Can seeing people **think** as well
As we?” the blind girl said.
“I hardly know how they can hold
The thoughts within their heads.

“For every moment something strange
Must flash before their eyes,
And keep them glancing to and fro,
In ever new surprise.

“Now when I have a lovely thought”—
(She smiled: it seemed to me
That every thought within that pure,
White soul, must lovely be)—

“I sit in quiet darkness here,
And nurse it in my heart:
It grows and grows, mine own, a joy
That never can depart.”

LAURA E. RICHARDS.

SPECIAL INFORMATION.

“The object of this Institution is the education and maintenance and, as far as practicable, the advancement in life of deaf and dumb and blind children.”

The Institution is open to Subscribers and other Visitors on Tuesdays and Fridays, from 2 to 4 p.m., and at other times on special order from the Honorary Secretary or a Director.

The Parents and Friends of children are admitted once a fortnight, on Thursdays, between the hours of 2 and 4 p.m.

The children are permitted to leave the Institution to visit their friends once a month, on special written application being made to the Honorary Secretary.

When a case of serious or infectious illness occurs while a pupil is at home, it must be reported to the Hon. Secretary, and the child must not be returned to school until all danger of infection has passed, and a medical certificate to that effect produced.

Forms and all particulars for the admission of pupils can be obtained of the Honorary Secretary.

Subscriptions and donations will be thankfully received and acknowledged by the Treasurer, the Secretary, or at the Institution.

The Meetings of the Board of Directors are held on the Second Monday in each month, at 3 o'clock p.m. The Ladies' Visiting Committee meet at the Institution on the last Friday in each month, at 3 o'clock.

The cost of passages to and from the Institution must be paid by the friends of the pupils, the Board having no fund for this purpose.

All communications to be addressed to Mr. William Rigg, Honorary Secretary, at the Institution, City Road (late Newtown Road), Darlington, Sydney.

Money orders should be made payable to the Secretary or Treasurer, at the General Post Office, Sydney.

It is highly necessary that the Parents or Friends of children should notify the Secretary of any change of residence, so that, in case of illness, or other cause, immediate communication may be made.

The Public, Subscribers, and friends of the Institution are earnestly entreated to notify the Secretary of the existence in their districts of any Deaf and Dumb or Blind Children, from 7 to 15 years of age, it having been a source of great regret to the Board to find that several children have passed the age of admission, simply from their not having come under the notice of some kind friends who would take the necessary steps to enable them to be brought within the advantages of the Institution.

INFORMATION AND DIRECTIONS RELATIVE TO THE AD-MISSION OF CHILDREN TO THE INSTITUTION.

1. Applications must be in writing, addressed to the Secretary, sent before the child is brought to the Institution, and should contain as full information as possible. The necessary forms can be obtained of the Hon. Secretary.

2. Pupils are admissible from any part of the State of New South Wales, and, under certain conditions, from other States.

3. No child deficient in intellect, subject to fits, or unable to wash and dress itself, can be considered a fit subject for admission; and no child, whose conduct or habits are deemed by the officers to be objectionable, will be allowed to remain in the Institution.

4. No child shall be admitted of any age younger than seven years, nor older than twelve years, unless under special circumstances, to be decided by the Board.

5. No order will be given by the Secretary for a child's admission until the medical certificate has been obtained, and it must be understood that no children are eligible for admission until every means have been tried for restoring their sight or hearing, as the case may be.

6. Children, on entering the Institution, are required to have two complete suits of clothing for school or week-day wear, to be of dark colour, and a better suit for Sunday, and to be provided with clothing (see list) by their parents and friends during their residence. Each child must be provided with a box or trunk, in which to keep clothing when clean. If £5 be remitted, the Board will purchase an outfit on admission.

7. Any amounts remitted to the Secretary for the purchase of clothing will be expended under the direction of the Board of Directors.

8. School fees vary according to the circumstances of the parents; the highest fee is £40 a year. If the parents are not able to pay that amount, a smaller fee will be accepted.

9. In the case of pauper children, a certificate of inability to pay any fee must be obtained from known individuals.

10. Fees are payable in advance, and date from the time of admission.

11. Children cannot be permitted to leave the Institution unless with the direct sanction and authority of the Board of Directors.

12. In addition to the usual educational course, the girls are taught cookery, household duties, and plain and fancy needle-work; and the deaf boys carpentry.

13. The vacations are 6 weeks at Christmas and 1 week at midwinter; and it is essential that pupils should return to the Institution on the day fixed to commence duties after each vacation, "and with their clothing clean and in proper order." (See list.)

14. The average term of residence in the Institution for pupils is from 2 to 10 years, but the length of stay depends a good deal on the age of the child when admitted. Parents should particularly note this, as, if a child is kept at home until 12 or 13 years of age, it cannot be permitted to remain the full term, and as it takes from 8 to 10 years to educate an afflicted child properly, it is very important that it be sent when about 7 years of age. Parents will only have themselves to blame if they keep their children at home too long, and then have them only partially educated.

15. Except under special circumstances children will only be admitted at two periods of the year, viz., in January and July.

16. It is requested that all communications be addressed to

WILLIAM RIGG, Hon. Secretary,
City Road, Darlington, Sydney.

FORM OF BEQUEST.

TO THE

NEW SOUTH WALES INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND.

I give and bequeath unto A.B. (or unto my said executors or my said trustees as the case may be) the sum of upon Trust to pay out of my Personal Estate to the Treasurer for the time being of "The New South Wales Institution for the Deaf and Dumb and the Blind" (Incorporated). City Road (late Newtown Road), Darlington, such sum as a donation to the said Institution.

The following is the proper attestation to a Will:—

Signed by the above-named testator as and for
his last Will in our presence who in his
presence at his request and in the pre-
sence of each other have subscribed our
names as Witnesses.

Signatures and Addresses.

HINTS TO PARENTS WHO WISH THEIR DEAF CHILDREN TAUGHT TO SPEAK.

Do not check, but encourage, the child in the production of vocal sounds, noises, and laughter, even though such sounds may be deemed unpleasant or discordant. Speak to the child at all times, slowly and distinctly, in such a manner as to afford a good view of the lips and tongue.

Though at first not able to understand, the child will, in course of time, if this practice be persistently carried out, begin to associate certain movements of the lips and tongue with certain objects and actions. Many deaf children in this way are taught by their parents and nurses to speak understandingly such words as *papa*, or *mamma*, etc.

On the same principle that the sound of the spoken word, striking continually on the active ear of an infant, at length connects itself in the child's brain with a certain object or action; so does the movement of the lips and tongue convey a similar impression through the eye of the deaf child, as to the relations existing between such movements and the objects, etc.

Avoid most carefully making signs. Use no more natural gestures than are absolutely necessary. A look or pointing at the object should, as a rule, suffice. Encourage the child to associate with hearing children. If possible keep the deaf child strictly apart from those using signs or the finger alphabet.

Be very patient and consistent in your treatment of and behaviour to the deaf child, and see that others are, too; not quick and impatient at one time and over indulgent at another, but always loving, gentle, and firm. As a rule there is nothing in the deaf mute child itself to prevent physical and intellectual improvement. He has the same mind, the same understanding, the same capacity to learn as other children possess. How shall his mental faculties be developed? How shall he learn from others to use their language when he cannot hear their words?

The solution of this problem is the special province of schools for the deaf. Instruction in such schools can only result successfully when it is assisted and prepared for by the **Home training**. In the early education of deaf mutes it should be taken into consideration that in consequence of their infirmity they are more dependent upon others, and have more claim to patience and forbearance than those who hear.

From their earliest infancy they should feel the lack of this forbearance and patience as little as possible. Parents must assist the deaf mute child from the first and devote themselves to him more self-sacrificingly than to others. The above hints are certainly not meant to encourage parents in pampering their deaf children, or spoiling them by over-indulgence, or fostering self-will in any way.
